LIEUTENANT COMMANDER R SCHWAB  
ROYAL NAVY - 12th June 2003

Lt. Cmdr. Schwab was on a test flight from St. Athan in South Wales, where the aircraft had been undergoing maintenance, when it entered an uncontrollable spin while flying at 28,000 feet. As the aircraft spun down through 10,000 feet, he successfully initiated his Mk.10H ejection seat and was recovered uninjured.
